### Instructor Workshop Video

Instructors giving workshops are to submit a quality video of their teach by 1 July 2021 (preferably on USB – which can be returned to you). Please make sure that you shoot the teach video in landscape view. The subject must be in focus, uniformly lit and with neutral background. Good sound quality is important, with little or no background noise. Shoot in full HD resolution (1920 x 1080px) or better, with a frame rate of 50fps preferably, so that it can be viewed in slow motion. If 50fps is not available, 25fps will do. The actual recording format will depend on your hardware, but acceptable formats are AVCHD (with H.264 codec) MP4 and MOV. Standard Apple and Android phones have adjustable resolutions and the standard rate of 30FPS is acceptable.
